EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Please replace paragraph [0001] with the following paragraph:

[0001] Reference is made to co-pending, commonly –assigned Attorney Docket Number D/A3233Q, U.S. Patent Application No. 10/721,626, filed November 25, 2003, now U.S. Patent No. 7,006,780 B2, entitled, "Partially Fluorinated Polymer Coated Development Electrodes," the subject matter of which is hereby incorporated by reference in its entirety.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The instant process is novel and unobvious over the prior art of record. The prior art does not teach or disclose the use a partly fluorinated polymer as a co-solubilizer of an organometallic compound in a fluorinated solvent. U.S. Patent No. 6,747,089 B2 discloses the use of a fully fluorinated polymer for solubilizing an organometallic compound in a fluorinated solvent. However, the '089 patent does not teaches or

discloses the use of partially fluorinated polymers. For example, the long chain carboxylic acids recited in claim 7 have different chemical properties when compared to their respective perfluoro analogs. See Lehmler et al., Journal of Fluorine Chemistry, Vol. 107, No.1, pp. 141-146 (2001), particularly Table 3 on page 145.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
